AI IN THE OFFICE: USERS, USES, AND ETHICAL AWARENESS

Mary Marcel, Katrin Fischer, Karen Smiley, Rahul Divekar, Lakshmi Veeramani

Conference of the Association for Business Communication, Long Beach, CA – Oct. 2025

Scope of AI, Software, & Wetware Interviews: Three of Five Ethical Concerns

AI, Software, & Wetware Interview Questions

1. Please tell us about yourself, who you are, and what you do.
2. What is your level of experience with AI, ML, and analytics? Have you used it professionally or personally, or studied the technology?
3. Can you share a specific story on how you have used a tool that included AI or ML features?
4. If you have avoided using AI-based tools for some things (or anything), can you share an example of when, and why you chose not to use AI?
5. How do you feel about companies using data and content for training their AI/ML systems and tools?
   - *credit to CIPRI (Cultural Intellectual Property Rights Initiative) for their* "3Cs Rule"
6. As a user of AI-based tools, do you feel like tool providers have been transparent about sharing where the data used for the AI models came from, and whether the original creators of the data consented to its use?
7. As consumers and members of the public, our personal data or content has probably been used by an AI-based tool or system. Do you know of any cases that you could share?
8. Do you know of any company you gave your data or content to that made you aware that they might use your info for training AI/ML?
9. Has a company's use of your personal data and content created any specific issues for you, such as privacy, phishing, or loss of income?
10. Public distrust of AI and tech companies has been growing. What do you think is THE most important thing AI companies need to do to earn and keep your trust? Do you have specific ideas on how they can do that?
11. Anything else you'd like to share with our audience?
